

30-02-R-INTEGRATED QHSE POLICY

We know that our long-term success is to maintain the level of commitment with customers, demonstrating our ability to continuously improve the provision of our Services, while protecting the people and the environment where we work.

POLICY SCOPE:

- Satisfy or exceed the expectations of our client-partners, ensuring 100% the technical requirements of each projects. The human team of Igeotest follows the quality principles approved at all levels of our service delivery process.
- Prevent damage and deterioration of the health of workers, customers and third parties is a firm commitment of the company. Offer and guarantee an environment, conditions and safe work equipment, as well as training that provides our employees with the knowledge and information necessary to safely perform their assigned tasks. The prevention of risks is done with the necessary consultation and participation of all workers.
- Ensure that the services provided are carried out with maximum protection to the environment and we make sure that our suppliers and subcontractors also do so.

IGEOTEST COMMITMENT:

- Ensure strict compliance with quality standards (ISO 9001, UNE-EN ISO / IEC 17025, Royal Decree 410/2010 of March 31, Decree 257/2003, of October 21), Environment (ISO 14001) and Security and Health at Work (ISO 45001), in each and every one of our services, applying continuous improvement, which translates into strict control over all technical and human factors that affect: good professional practices, technical competence, the direct or indirect way in the quality of our final services, as well as the improvement of environmental performance.
- Encourage all workers and put at their disposal the necessary means to comply with the objectives of quality, environment and health and safety.
- Establish safe and healthy working conditions to eliminate hazards and reduce occupational health and safety risks.
- Protect the environment where we work, making compatible the activities developed in the company with the conservation of the environment and prevention of pollution, promoting the reduction, reuse and / or recycling of generated waste and rationalizing the consumption of energy and natural resources.
- Comply with the applicable legislation and regulations, both in terms of Quality, Environment and Safety and Work and adequately train all personnel.

The QHSE policy will be integrated at all levels and is the responsibility of the management with the active support of all our employees.

Figueres, February 2th, 2019
